

RESULTS REPORT · 27 OCTOBER 2026

More people now find Sunshine

Before and after, on Google, on Google Maps and in AI answers. 17 to 26 October 2026.

THE 30-SECOND VERSION

Three things to know

1 Google lists you more often

On page 1 for 10 of 13 searches we track, up from 7.

2 Google Maps puts you first

#1 near the shop for 3 of 7 searches, up from none.

3 Next: reviews and wash-and-fold

AI answers name you for "where to wash", not yet for drop-off wash and fold.

STILL TO WIN

Where you still miss out

0 of 3 wash-and-fold questions where AI names you

Not page 1 ซักอบพับ ฟรี, ร้านซักผ้า บางนา, ร้านสะดวกซัก ราชาเทวะ

4 → 6 laundromat bang phli, on Google's list

Who AI picked instead

For the 3 wash-and-fold questions, Google's AI listed **ironing shops and pickup services**, not laundromats.

Done 26 Oct: wash-and-fold added to your Maps listing.
Next: reviews that mention ฝากซักอบพับ.

A review card for the counter

1. Print it and put it at the counter and on the folding table.
2. Customers scan it; it opens your Google review page.
3. Ask them to say which service they used: ฝากซักอบพับ, ผ้านวม.

Ask every customer, not only happy ones, and never give a reward for a review. Google removes those reviews and can penalise the listing.

Aim: named in wash-and-fold AI answers by the 17 November check.

WHAT HAPPENS NEXT, AND WHEN

The next four weeks

This week	Review card printed; photos of folded baskets and 18 kg machines added to Maps.	More reviews that name the service
When allowed	Once Google turns Maps posts back on: one post a week about the weekend service.	Listing looks active
17 Nov	Full re-check: same searches, same method, same AI questions.	Aim: 11 of 13 on page 1
17 Dec	Second re-check, and decide the next pages to build.	Two months of trend

Google usually takes 2 to 8 weeks to settle after changes. Aims, not guarantees.

WHAT WE NEED FROM YOU

Three small things

1. Print the review card
2. Send photos: folded baskets, 18 kg machines, the shop at night
3. Confirm the drying time: 28 minutes, or 30 and 40?

Next check: 17 November 2026
